Speaker 1 (00:00)
So I am so I'm now here with the second participant vishrator so Vishrut, you have to think you have to book a ticket from Pune to Delhi. Select suitable date and economy will like search it. Then you have to go to the next page.

Speaker 1 (00:15)
Select that flight to you want. And then after that book, and after that, sell your information, and whatever you are doing, think about, speak your thoughts, okay, don't

Speaker 2 (00:27)
Okay, fine.

Speaker 1 (00:29)

Above the website, okay, not for the price for anything. Just about how the website is there.

Speaker 2 (00:34)
For example, I wish to buy a ticket from Pune to Berlin.

Speaker 1 (00:43)
If he's searched, even

Speaker 2 (00:52)
Think up so, from Pune to Delhi. You know

Speaker 2 (01:16)
Oh, good.

Speaker 2 (01:36)
So if I talk about the UI it's pretty neat and easily accessible, as you can see, like, here's the flight details, the app F. I think it's pretty neat. Yeah

And I think the US user-friendly

Speaker 1 (02:04)
So now you have to Book climate, if you like, okay. Yes On hair, flowers from here.

Speaker 2 (02:18)
Okay.

Speaker 2 (02:52)
Okay.

Speaker 1 (03:01)
Sugar and

Speaker 2 (03:04)
Okay.

Speaker 1 (03:11)
So in this field, what problems are you? What do

you do?

Speaker 2 (03:15)
Um yeah, so Here without that's what I'm saying. So basically. Hawa.

Speaker 2 (03:29)
Basically, I didn't know say I thought it would be better if like, we could just select the flights here, and then after entering here, humming up, if you dikh sakte kaun se it's Koi na dekhna, I thought at first glance, I thought I asked a book karna. But then you have to book it from here. So I didn't know or you happen?

Speaker 1 (03:54)
So what?

Speaker 2 (03:58)
Cal. So, it would be better if there was a

demonstration or like Some saint issue. Tell me, okay, so yahan, se you have to book or something like that.

Speaker 2 (04:18)
Yeah, that's all I guess.

Speaker 1 (04:21)
So this was the main proble

Speaker 2 (04:24)
The thing is, ki, ha like if I okay, pelamic, and then I was like here, yeah, phir ki dikha hai, and then you told me, okay, Bo return ka hai.

Speaker 1 (04:38)
I guess we will move so now we are on to my prototype now. Vishrat will review my own. Okay, book any from anywhere like see.

Speaker 2 (04:50)
Search flys. Care. Oh, yeah, this one's better.

Speaker 2 (05:00)
Because okay you can see like, yeah, when you click, you can see the continued cup button and then confirm booking. This is very easy like, yeah, okay date of birth and then like, okay, you can add contact details, phone number and say you can confirm booking, which is quite create. It's not confused for the user.

Speaker 2 (05:25)
Okay, okay, like they don't have to question. The thing is, when users are going through a website or when they're accessing a website. Unke, dimag, Mein questions, naform, h* legs, it Mein, come questions form hotna, he h* website better Hota, so here what's happening is ki.

Speaker 2 (05:44)
Jaise Mein, like, for example, Maine ek flight per se lect kiya, tha so it shows me continue when I go on, continue. It shows me booking so basically. It's quite accessible, easier and like the other questions near the margin, which says it's a good website.

Speaker 1 (06:04)
Thank you. No problem.
