Speaker 1 (00:00)
Okay, so I'm now here we are at here with waharsh, what you have to do, it's, you have to book a point to Delhi, fly it, select that day to want to how many passenger class you have to search users to search it and after that, go to the next page book that book the flight, which you want, and fill up as and details and then tell me and then tell your thoughts while doing each.

Speaker 2 (00:26)
The destination. Departure date, let's go with 24th October. Unwritten date, let's COVID.

Speaker 2 (00:42)
11th, November. I'm another kind of internal confirmation. Yes, I'm another adult.

Speaker 2 (01:01)
I'll go with an economy because this and I have a student construction Okay, now it will look for the flights. Yeah Okay, then, a lot of options. You have to go ahead.

Speaker 1 (01:28)
We're good.

Speaker 2 (01:39)
This is like 455. This is 930 okay, I'll go with this.

Speaker 2 (02:03)
Here, I have to select a written flight. As AI Compliment to Ma.

Speaker 2 (02:30)
Is it required to go further?

Speaker 1 (02:33)
No, no fine, so now did you use your website? Whatever your thoughts on this. Did you get any problems?

Speaker 1 (02:38)
Did you it was smooth for you?

Speaker 2 (02:41)
It was kind of smooth for me, but uh, the information is way too cluttered. I mean too much information on a single Patient need in a single box rather or a single window, not a peach.

Speaker 1 (03:00)
So that's the main main concern of it. Okay, so now what we will do, we will go to my website now. You can book tickets

Speaker 2 (03:12)

Okay. From Okay, so poor nail to Delhi. For this depart and duty

Speaker 2 (03:40)
Let's go with the same there.

Speaker 2 (04:13)
Percentage, do I have to go further?

Speaker 1 (04:16)
Doctor. Yes

Speaker 1 (04:38)
So what is option this one

Speaker 2 (04:42)
So I thought some this one, this is much easier to use, but there is no passenger type mentioned in this, whether I'm an adult or Child or A senior citizens.

Speaker 1 (04:58)
No.

Speaker 2 (05:03)
I couldn't find it.

Speaker 1 (05:04)
Yeah, of course. Here it was like this. So this one was better friend.

Speaker 1 (05:13)
Yeah, so which one did you like the original one? I'm modified.

Speaker 2 (05:21)
Let me thank The one you need is much more easier to use. And visually, there is less information dumping or loading

Speaker 1 (05:42)
This was your primary concern about the information detail. Thank you for your insight, search.

Speaker 2 (05:48)
Yeah, thank you for taking my interview.
